

Other Early Childhood Programs

The Susquehanna Waldorf School provides Early Childhood programs designed to fit the needs of young children and their parents, from birth to Age 6. Joyful Beginnings (for infants) and Little Ferns (Birth to age 3) Parent & Child classes are available in five sessions throughout the year. Mixed age Kindergarten serves children ages 3-6. Our Afternoon Garden offers a full day option for children. The school provides an after school program to accommodate working parents. Please call the school for more information or visit our Admissions Office.

Other ways to get to know us....

Complimentary Classes are offered to families to discover the rhythm and joyfulness of a Stepping Stone class. Please contact Admissions office to schedule.

Open Houses for Early Childhood and Grades are held throughout the year; a time to tour the school and speak with the teachers and Admissions Coordinator about Waldorf curriculum.

Stepping Stone

Toddler Program

2021-22

Waldorf Education begins with the wonder and reverence of childhood.

Stepping Stone Toddler Program

Ages 2 & 3 years

ABOUT STEPPING STONE

This Waldorf Early Childhood program offers toddlers a beautiful, peaceful and nurturing environment in which to take their “first steps” into class on their own. Our home-like setting nourishes a child’s senses and fosters their imaginative play.

In Stepping Stone, toddlers explore the sweet (and sometimes bumpy!) beginnings of socialization with peers. Special attention is given to support the unfolding of children’s interests, motor abilities, social interactions, and problem-solving skills. A strong daily rhythm is held, filled with artistic endeavors, singing, baking and outdoor time. At the heart of the Stepping Stone classroom lies a sense of wonder for Nature, respect for one another and awe for the greater world around us.

Along with other compatible principles and teachings, our work is based on the wisdom of Rudolf Steiner and Waldorf Education and incorporates elements of Emmi Pikler’s work. These include respectful caregiving and ample time for uninterrupted and self-directed play, which, in turn build trust and self-confidence in the very young child.

Our aim is to help you establish a healthy foundation for your child’s life. Come learn with us in this imaginative, purposeful and loving environment. Stepping Stone is ideal for the young child who is transitioning from Parent & Child classes to the Mixed Age Kindergarten, or who, developmentally, would benefit from a shorter day/ week before entering Kindergarten.

Come visit for a complimentary class, Open House or School Tour.
